DETAILED ACTION

Response to Amendment

1. The reply filed on 11/29/2001 is not fully responsive to the prior Office action because of the following omission(s) or matter(s): Applicant's election of the single species a (nickel/titanium alloy) and b (nickel/titanium alloy) is not consistent with the restriction election requirement of Paper no. 5 section 3. For applicant's convenience section 3 a and b have been repeated below.

a. Elect the housing tube material (e.g., Nitinol, titanium/nickel alloy, etc.). **Note upon election of an alloy applicant is required to further provide the percentages of each constituent.**

b. Elect the thin-walled/neutron permeable material encapsulation material (e.g., **platinum, gold, titanium, or aluminum 1100**). Note the listed materials are those disclosed within the specification (see for example paragraph 19 of the specification). Applicant's election of nickel/titanium alloy as the encapsulation material is not considered to be supported by the specification.

Note further applicant identified claims 3 and 19 as not reading on the elected species of Paper no. 5. The election is inconsistent. It is believed that applicant is identifying between the thin-walled neutron permeable material and the encapsulation material. It appears that the thin-walled neutron permeable material and the encapsulation material are the same only broader in

scope. If there is a difference between the thin-walled neutron permeable material and the encapsulation material applicant should state so on the record.

See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given a TIME PERIOD of **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
